

Oregon Institute of Technology

Humanities and Social Science Elective Courses

OIT recognizes the following courses as meeting the humanities and social science elective requirements for Oregon Institute of Technology Bachelors degree.

Please note that this list does not include the entire elective courses which may be used. This document acts as a guideline to help you in finding appropriate courses to satisfy requirements.

Courses numbered **100** and **200** may be used to meet OIT's junior/senior level humanities and social sciences, with the exception of Foreign Language. Those courses must be 200 level or above. You may select 300/400 level courses; this usually requires a prerequisite or assumes that you are majoring in that area and have previous background knowledge.

****Please note that only one art or music course that is 'activity based' or 'performance based' (photography) can be used for humanities.**

The following subjects have examples listed; additional classes may be acceptable. Please check with your advisor to find out if the course is equivalent.

HUMANITIES **

ART

ARH History of Western Art
